Red Oak Angus Stud 2025

Welcome to the Red Oak Bull Sale Catalogue 2025

As we write this year's intro and reflect on the last 11 months since Rick's sudden passing, we have found it difficult to even put any words to paper. Since that day we have just been going through the motions, putting one foot in front of the other, getting through each day one at a time, and doing what we need to on the farm the best we can. It is difficult to carry on this farming dream without the dream maker. Rick was someone who took actionable steps to achieve his goals and make things happen, always with the intention of turning his dreams and ideas into reality. And although it has been tough to push on with the same approach, we can't help but feel grateful for our time with such an amazing mentor and the hard work, dedication and heart he has put into this farm, this stud and this life, all for us. We hope to make him proud as we continue to run Red Oak and let his dream live on.

At Red Oak, Mike has taken over the day-to-day management with the help of Ryan. Ash helps when needed while also managing his own place Palmdale. We have tried to keep everything as normal as possible which has been quite hard starting off in a very dry season with only 470mls of rain for the whole year in 2024. However, while in the depths of what will forever be our hardest year at Red Oak, mother nature thankfully decided to give us some reprieve. With around 330mls since January, coming in consistent amounts, things on the farm are starting to improve. All the stock are looking magnificent, and the bulls are pleased to be eating green grass for a change! We managed to replenish some of our feed supplies making silage and baleage and put in some crop ready for when the rain stops. Because as we all know in North Canterbury and at Red Oak it's only a matter of time until it's dry again!

This year's bulls had a tough start to life and are living proof Red Oak genetics can still perform under some of the most extreme circumstances. With limited feed from the moment they hit the dirt through to weaning, the cows did a good job of getting them going as expected. From late February through to the end of August with the dry well set in and no feed around, these bulls survived mainly on spuds and just enough silage from a pit that had been stored for eight years. The bulls you see here today have come through the year performing under extreme pressure, however with some much-needed rain they have thankfully had feed in front of them lately and are looking good. Once again, we look to provide some Pure NZ genetics with typical Red Oak traits such as easy doing, soft fleshing, great temperaments, soundness, thickness and constitution that our cattle are renown for. We look forward to catching up with you all at the sale. And as Rick always said, *"Remember you don't have to buy a bull to be welcome here and enjoy a day out"*.

Regards

Deb, Ash, Tam, Mike & Vanessa

THE RED OAK TEAM

Although every care has been taken to ensure accuracy in this catalogue, the vendor the vendor's agents and printer do not take any responsibility for any errors and/or omissions contained therein.

CONDITIONS OF SALE AND OTHER INFORMATION

Guarantee

All Red Oak bulls are guaranteed for 3 years from date of sale for structural unsoundness, infertility or incapability of service.

Under these circumstances Red Oak will:

- Replace the bull with a satisfactory substitute if available, or;
- Issue a full refund equal to the purchase price less the salvage value.

The guarantee covers the purchase value of the bull without interest, cost or damages.

The guarantee shall apply providing the bull's incapacity is not caused by injury or disease contracted since leaving Red Oak and is calculated on the basis that the guarantee is reduced by one third of the purchase price for each year of standard service from the sale date. A veterinary certificate must be supplied by the purchaser on request.

If any bull that is purchased does not possess reasonable fertility, although not totally infertile, any dispute arising shall be settled by an arbitrator appointed by the auctioneers and must be lodged within 12 calendar months from date of sale.

We recommend that all purchasers discuss injury insurance of their bulls at the sale with their insurance provider. This guarantee is in addition to the normal terms and conditions governing auction sales.

Health

All Red Oak bulls are examined by a veterinarian prior to sale day. This examination includes palpation of the sexual anatomy, blood testing and general health assessment.

All bulls have been blood tested negative for BVD and EBL virus. Bulls offered today are from a brucellosis-free and TB accredited herd with a C10 rating.

Bulls

Delivery of bulls is to be taken in the first week after the sale. Vendors are prepared to discuss arrangements to hold bulls for purchasers on condition they are insured by the purchasers as from the fall of the hammer until delivery is given.

Payment

Due date for payment on all cattle sold at this sale is 14 days from the date of the sale.

Delivery

Will be free to the closest sale yards in the South Island and to Feilding sale yards in the North Island for the first week after the sale but thereafter by purchaser's own arrangements.

FMG Insurance

FMG Insurance covers transit and a 14 day period from the fall of the hammer.

Personal Health & Safety

Please be aware that there are many potential hazards on any farm and that you enter the property at your own risk.

POINTS TO NOTE

Red Oak Bulls are:

- ✓ *guaranteed for 3 years*
- ✓ *service and semen tested*
- ✓ *examined for preputial structure and testicular function and had structural assessment by local vet*
- ✓ *grass and hay fed only*
- ✓ *BVD & EBL tested Negative & vaccinated*
- ✓ *a TB status herd of C10 and are Brucellosis-free*
- ✓ *worked by dogs*

THE REMARKABULLS.

In 2024 we sought your prize-worthy bulls to hero them front and centre – they really fill the frame.

These beautiful bulls are worth their weight and more, requiring strong cover on sale day, and solid service every day after that.

That's why we offer existing FMG clients (with an active policy), **14 days free cover** for bulls purchased at any FMG Premier Bull Sale up to the value of \$50,000 per bull, on completion of an Insurance Form.*

Cover can be extended beyond the initial 14 days free cover for the remaining period of 12 months at 7.6% of the purchase price (rates differ for shorter policy periods).

To find out more, talk to your FMG rep, visit fmg.co.nz/contact-us or call us on 0800 366 466.

Left to right: CHAROLAIS - Trudy and AJ McIntyre; SOUTH DEVON - Richard and Denise Van Asch; HEREFORD - Jason Hill; ANGUS - Sherson Family (Brian and Sharon Sherson, their son Rob and his wife Tracy)

We're here for the good of the country.

*Offer subject to Livestock Policy terms and exclusions, and underwriting criteria.

D/P 5/5 - GD 7/7 First of the RO 20/110 sons in the sale. Awesome bull, good type, deep, thick. Great temperament. Tidy figures to go with him. Again, has come through from weaning through the dry and looked like he does now. Really like this bull. Used in the stud heifers. RO 20/110 is a High country son and was sold to Jed McAlley Hillview stud.

TARGETED BREEDING

BULL FERTILITY SOUNDNESS CHECK:

On the 30th of April, 2025 all Red Oak bulls on offer were subject to a crush side examination to ensure no anatomical abnormalities were present on the reproductive organs.

- The Testicles were inspected and palpated to ensure the presence of two symmetrical turgid testicles with no lumps or deformities.
- Protrusion of the penis was obtained through electro stimulation, of which the Penis and prepuce was inspected for any frenulum's, signs of disease (IBR or papilloma's), damage or deviations.
- A semen sample was collected and evaluated for progressive motility, morphology and density. Any bulls in question were assessed under oil emersion magnification through Eosin /Nigrosin stains.

A pass indicates no abnormalities have been detected which would impact the fertility of the bull prior to the sale.

FMG Premier Bull Sale Insurance Form

What is FMG Premier Bull Insurance?

On receiving a completed FMG Premier Bull Sale Insurance form, FMG provides its existing FMG clients with an active policy 14 days free insurance for bulls purchased up to \$50,000. For bulls purchased over \$50,000, please contact an FMG representative.

What is the length of cover?

Your specified bull(s) will be insured for 14 days once you have fully completed this form and it's received by an FMG representative. If you would like a longer period of cover, simply tick the Cover extension box below to extend your Premier Bull Insurance to 12 months. The specified bull(s) is then insured for the next 12 months at 7.6% of the purchase price.

FMG will invoice you for this additional cover.

What are the benefits?

✓ Infertility	Cover if your specified bull has to be euthanised due to permanent infertility caused by certain accidents, disease, injury, or illness.
✓ Theft or death	Cover for your specified bull for theft or death caused by certain accidents, disease, injury, or illness (including while in transit anywhere in New Zealand).
✓ Vet costs	Cover up to \$500 for treatment of your specified bull to prevent death.

What will FMG pay?

FMG will pay the fair market value of your specified bull, less any amount you receive for the sale of the carcass, up to the amount shown on the insurance certificate.
